

Kindergarten Social Studies Choice Board 2021

Holidays!

Talk about the ways your family celebrates holidays. What do people do over the summer for July 4th or another holiday. Why do we celebrate these holidays? Draw a picture or draw with chalk a way you celebrate.

Maps!

Look for maps in nonfiction books. Remember the map is a birds eye view! How does the map help you find places easily? Try looking up your house or fun places on google maps.

Weather Watcher!

Record the weather each day! What type of weather did you see the most of, the least of? Make a pinwheel to observe the wind.

You've Got Mail!

Write letters to relatives or friends. Family members and friends love to hear from others- especially young and talented writers like you!

Create a Sign!

When you have something that you want your family to know, make a sign to share that information with everyone easily. Make a sign to put near your block or lego design. Create a sign for an event or party.

Cardboard Creations!

We enjoyed reading about the exciting lives of early explorers. Can you make a ship out of a cardboard box and pretend to be an sea explorer? What are you searching for?

Create a Card/Sign!

Write a thank you note, sign or card to a person that we celebrate on Labor Day- to a neighborhood hero, a family member, a community member, or a healthcare worker- thanking them for their service.

Create a Map!

- Make a map of your house, your yard, or your bedroom.
- Can your map help you find some treasure? Can it help you go on an adventure?

Celebrate The USA!

Make your own United States flag, using any supplies of your own- paper, paint, popsicle sticks, etc.

Have your own parade with friends, family members, pets, and stuffed animals.
